UAC
Steps to Uni for Year 11 & 12 Students

Key dates for 2024 Year 12 students

UAC application dates

Undergraduate applications open (including Educational Access Scheme, Schools Recommendation Scheme and Equity Scholarships)	Wednesday 3 April 2024
International undergraduate applications open	Wednesday 17 April 2024
Applications close for semester 1, 2025	Friday 7 February 2025

Most offers to Year 12 students are made in December and January, after the release of the ATAR.

Schools Recommendation Scheme
Application dates

Applications open	Wednesday 3 April 2024
Applications close	Monday 16 September 2024
First SRS offers	Friday 8 November 2024

Scan to view a full list of UAC dates and check for changes, or go to uac.edu.au/key-dates.

Year 12 results and ATAR

All dates determined by external organisations are subject to change.

2024 NSW HSC students	2024 ACT Year 12 students
Wednesday 18 December 2024 NSW HSC results released by NESA from 6am ATARs released by UAC on UAC's website from 9am	**Wednesday 18 December 2024** Statement (including ATAR) issued by ACT Board of Senior Secondary Studies. Students should collect their certificates from their college on or after this date ATARs released by UAC on UAC's website from 9am

2024 International Baccalaureate (IB) students
Results released early January by IB Cardiff, UK Date to be confirmed

Welcome to UAC

Now that you're in Year 11 or 12, you're no doubt giving some thought to life after school. Of course, you might not be sure about what you want to do next. If that's the case, don't worry: you're not alone! Many Year 11 and 12 students are not sure of the path they want to follow.

If further study at university is even just a vague possibility at the moment, then it's a good idea to become familiar with UAC and how we can help you get to uni.

What we do

UAC calculates the Australian Tertiary Admission Rank (ATAR) for NSW HSC students and processes applications for admission to tertiary courses at participating institutions, mostly in NSW and the ACT.

When you apply for university through UAC, you can:

- apply for multiple courses at multiple institutions, all in one place
- apply for an early offer through the Schools Recommendation Scheme
- ask institutions to take into account challenges you've faced at school by submitting an Educational Access Scheme application
- apply for financial help via an Equity Scholarship.

This publication provides suggestions for researching your post-school options, outlines the process of applying to university through UAC, and explains the purpose of the ATAR and how applicants are selected for courses.

Getting help

If you have questions about the content or structure of a uni course, your best bet is to talk directly to staff at the university. Open days are a great opportunity to do this. You'll find a list of this year's open days on our website.

If you need some guidance around the uni application and offer process, our Customer Service team is always ready to take your calls and answer your online enquiries. Please get in touch with us if you ever need advice or reassurance.

I also recommend keeping an eye out for our Community Engagement team at expos and schools throughout the year and taking a look at our series of webinars on our UAC Digital YouTube channel. Follow us on TikTok, Instagram and Facebook for event notifications or check the key dates on our website.

In the meantime, good luck with your studies.

All the best,

James Kevin
UAC Chief Customer & Commercial Officer

You'll need a USI.

Your Unique Student Identifier (USI) is your education number for life. You need a USI if you are:

- a student studying nationally recognised Vocational Education and Training (VET)
- seeking a VET student loan
- a higher education student seeking a HELP loan or Commonwealth Supported Place
- graduating from university.

Find or create your USI at usi.gov.au

Contents

Your **ATAR** is a rank (not a mark) based on **your position** compared to other students in the state.

Your **HSC mark** for each course is based on **your performance** in your exam and assessments.

Understanding the ATAR

The ATAR allows us to compare the overall achievement of students who have completed thousands of different combinations of HSC courses. Its only purpose is to help universities select students.

HSC: the starting point

The Higher School Certificate syllabus and exams are set by the NSW Education Standards Authority (NESA).

Your HSC marks, as reported in your Record of Achievement, indicate the performance standards you have reached in each of your courses. Your HSC mark for each course is a 50:50 combination of your school-based assessment mark for that course and your HSC examination mark.

There is no quota as to the number of students who can achieve top marks and students are not scaled against each other.

HSC assessment marks

As you know, your assessment tasks are marked at your school. Because schools mark in different ways, NESA needs to remove the differences so that it can compare the results in a way that is fair for all students. It does this through a process called 'moderation'.

Moderation aligns school-based assessment marks with the raw state-wide exam marks.

In 2023, 55,523 NSW students earned an ATAR, studying over 25,000 different HSC course combinations.

Since the exam for a course is taken by all students completing that course (and it's marked by the same people in the same way), it can be used as a common standard against which school assessments can be compared. When assessment marks are moderated, students maintain their assessment rank but may be given a different assessment mark. If you are ranked second in your school assessment, you will receive the second highest moderated assessment mark.

Only assessment marks are moderated; you will always keep your own examination mark.

Fred and Laura

Fred and Laura are two Year 12 students who are thinking about going to university next year. Fred goes to school in the city and enjoys hanging out with his friends and playing basketball. The end of school seems a long way away but he thinks he might study something to do with sport when he finishes. He also likes the sound of business studies.

Laura goes to school in the country and grew up on her family's farm. She loves it when her friends come to stay and they go horseriding. Although she always thought she would study something related to agriculture, she likes many different subjects at school, including Visual Arts, so she's also thinking about being an art teacher, which will allow her to be creative and work with her hands.

Fred and Laura have chosen the same subjects for the HSC: Biology, Business Studies, English Advanced, Mathematics Advanced, Modern History and Visual Arts.

Throughout this publication we'll use Fred and Laura's story to show you how you can navigate your way to tertiary study.

HSC examination marks

Your exam mark will depend on how well you perform in the exam and is independent of your assessment rank. You keep your own exam mark, regardless of your performance in your assessments.

Your Record of Achievement

Your HSC Record of Achievement, provided by NESA, will show your examination mark, assessment mark, HSC mark and performance band. You won't be given a single, overall score for your combined courses.

Here is an example of how your HSC marks will be listed on your Record of Achievement:

Year	Board Developed Courses	Examination Mark	Assessment Mark	HSC Mark	Performance Band
2024	Business Studies (2 unit)	84/100	78/100	81	5
2024	English Advanced (2 unit)	83/100	77/100	80	5
2024	Mathematics Standard 2 (2 unit)	75/100	83/100	79	4
2024	Modern History (2 unit)	72/100	80/100	76	4
2024	Society and Culture (2 unit)	85/100	85/100	85	5
2024	Studies of Religion 1 (1 unit)	47/50	45/50	46	6

ATAR: your ranking in the HSC

In contrast to your HSC results, your ATAR is a rank, not a mark or a percentage. It's a number between 0.00 and 99.95 with increments of 0.05. While your HSC marks tell you about your performance in the HSC, your ATAR tells you about your position overall in relation to your peers. Think of it like a running race: your HSC marks are your time (and your time is not compared to anyone else's time), and your ATAR is your place (first, second, third, and so on). Your position in the race depends not only on your time but on the times of the students you are competing with.

ATARs are calculated in each state to reflect a student's rank against other students in their state. An ATAR of 85.00 in NSW or the ACT is, however, considered equivalent to an ATAR of 85.00 in other states.

In NSW the ATAR is calculated and released by UAC. In the ACT the ATAR is calculated by the ACT Board of Senior Secondary Studies and released by schools.

ATAR eligibility in 2024

To be eligible for an ATAR in NSW you must complete at least 10 units of ATAR courses in Year 12. These ATAR courses must include at least:

- ✓ 8 units from Category A courses

- ✓ 2 units of English

- ✓ three Board Developed courses (courses developed by NESA) of 2 units or greater

- ✓ four subject areas.

If you're completing an International Baccalaureate (IB), you won't receive an ATAR. Instead, an IB Admissions Score (IBAS) will be calculated for you based on your diploma score. When you apply through UAC, your IBAS will be converted into an ATAR-like value (called the Combined Rank) so that you can be ranked against other applicants.

A UAC rank (not an ATAR) will also be calculated for applicants undertaking tertiary preparation programs such as the Tertiary Preparation Certificate (TPC) and Open Foundation.

ATAR courses

In NSW, ATAR courses are courses developed by NESA. They have a formal examination and you receive a graded assessment. These are the only courses that can be included in the ATAR calculation. ATAR courses are classified as either Category A or Category B. Only 2 units of Category B courses can be included in the ATAR calculation.

Category A courses have the academic rigour and depth of knowledge to provide a foundation for tertiary studies; for example, Economics, Geography and Visual Arts.

Category B courses don't provide an adequate foundation for tertiary studies, but they can contribute to the ATAR when combined with Category A courses. No more than 2 units of Category B courses can be included in the ATAR calculation. Examples of Category B courses are Financial Services, Hospitality, English Studies and Mathematics Standard 1.

For a complete list of ATAR courses, visit the UAC website.

ACT Year 12 students who want an ATAR must sit the ACT Scaling Test (AST).

Year 11 students: From 2025, there will be no distinction between Category A and Category B courses. For a complete list of ATAR courses, visit the UAC website.

ATAR calculation in 2024

In NSW, your ATAR is based on your **scaled marks** in 10 units of ATAR courses, which will include:

- your best 2 units of English
- your best 8 units from your remaining courses (max. of 2 units of Category B courses).

Your scaled mark in a course will be influenced by:

- where your result places you in that course (your position)
- the scaled mean for that course (the average position of students taking the course).

The example below shows a set of 2023 HSC and scaled marks corresponding to results at the 90th percentile (ie 90 per cent of marks were lower) for each course.

Course	Scaled mean	HSC mark	Scaled mark
Ancient History	46.0	89.0	76.6
Biology	52.0	89.0	79.8
Business Studies	47.2	90.0	77.2
English Standard	39.8	81.0	61.8
Physics	61.8	91.0	86.2
Society and Culture	46.8	90.0	75.8

Even though the HSC mark for Society and Culture was one of the highest, it will not be included in the ATAR calculation. This is because Society and Culture has the lowest scaled mark of all the courses. (At least 2 units of English must be included, even if they are the lowest scaled marks.)

Scaled marks are not reported to students.

The ACT ATAR is calculated from a student's best three major scaled course scores plus 0.6 of the next best scaled course score (major or minor). The scaled course scores are added to form an aggregate score. Students are then ranked based on their aggregate score, which is converted to an ATAR.

English Standard and Mathematics Standard 2 are the most popular HSC courses.

Scaling

Just as individual units of different currencies are not of equal value (£1 is not the same as $1), marks in different courses can't be compared because the courses are completely different. But just as exchange rates allow us to compare the value of different currencies, the scaling process allows us to compare marks in different courses properly and fairly.

Courses are scaled using the mean scores and distribution of marks, which indicate the ability of the students taking the course, not the perceived difficulty of the course:

■ If a course has a high scaled mean, it tells us that, on average, the ability of the students in that course is high – in general, they did well in their other courses. Courses such as Mathematics Extension 2 and Physics usually have high scaled means because they're studied by high-achieving students.

■ If a course has a low scaled mean, it tells us that the ability of the students in that course ranges from high to low. (It doesn't mean that you can't get a high ATAR if you study that course.)

The following table illustrates these points using data from selected 2023 HSC courses.

HSC mean = average student performance in the course
Scaled mean = average position of students taking the course
Max. ATAR of student taking the course = highest ATAR calculated using both units of the course

Category A course	Median performance band	HSC mean	Scaled mean	Max. ATAR of a student taking the course
Aboriginal Studies	4	72.6	**31.4**	**99.35**
Biology	4	73.6	52.0	99.95
English Advanced	5	82.2	65.2	99.95
Physics	4	75.2	61.8	99.95
Visual Arts	5	81.8	43.6	99.95
Category B course				
Hospitality	4	74.8	38.0	99.15

This student's ATAR is very high even though it was calculated using their results in a course with a low scaled mean.

High scaled means for these courses indicate that the students are generally high achievers in all their courses.

A student taking a Category B VET course can still receive a high ATAR.

Remember, the ATAR is about position, and your position in a course is not altered by scaling.

For more information about scaling, visit UAC's website. You'll also be able to download these publications:

■ reports on the scaling of the NSW Higher School Certificate
■ Calculating the Australian Tertiary Admission Rank in New South Wales: A Technical Report.

Extension courses: For most extension courses the scaled means and standard deviations are determined by the performance of the extension students in the corresponding 2-unit course.

Your age cohort

Each state has a different number of Year 12 students who are eligible to receive an ATAR; that is, they have a different participation rate. To ensure the interstate equivalence of ATARs, an age cohort is used in each state. This means that a student's rank is a measure of their performance against their age group, not just those who completed Year 12 and were eligible for an ATAR.

English courses

Your ATAR is calculated using at least 2 scaled units of English. If you have completed more than 2 units of English, your best 2 will be included first; the remaining 1 or 2 units will be included if they are among your next best 8 units.

English Studies is a Category B course and can be included in your ATAR calculation. However, only one Category B course can be included, so make sure you have at least 8 units of Category A courses.

Mathematics courses

Up to 4 units of calculus-based maths can be included in the ATAR calculation. Mathematics Extension 1 is counted as 1 or 2 units depending on whether it is paired with Mathematics Advanced or Mathematics Extension 2.

If you study Mathematics Advanced (2 units), then Mathematics Extension 1 accounts for 1 unit.

If you study Mathematics Extension 2 (2 units), then Mathematics Extension 1 accounts for 2 units. This is calculated by doubling the mark you receive for the 1-unit course.

If you complete Mathematics Advanced then go on to satisfactorily complete Mathematics Extension 1 and Mathematics Extension 2, your results in Mathematics Advanced will not be included in your ATAR calculation, even if you have excelled in it.

Mathematics Standard 1 is a Category B course and can be included in your ATAR calculation. If you study this course, make sure you also study at least 8 units of Category A courses.

Accumulated courses

Courses can be accumulated for the ATAR over a period of up to five years. Scaled marks are calculated in the year you complete the course and the scaled mark can be included in your ATAR calculation when you become ATAR eligible.

Repeated courses

You will be considered to be repeating an HSC course if you:

■ repeat the same course
■ study a different course in the same subject area, apart from an extension course.

If you repeat a course, only the marks for your latest satisfactory attempt will be available for inclusion in the calculation of your ATAR, even if they are lower than your earlier attempt.

Your most recent ATAR will be the one used by tertiary institutions for selection purposes; again, even if it is lower than your original ATAR.

Re-marked HSC papers

If NESA provides UAC with amended HSC results, your ATAR will automatically be recalculated and UAC will notify you by email. Your ATAR can increase, decrease or stay the same.

Getting your ATAR

You can access your ATAR by logging in to UAC's website once ATARs are released.

To log in, you'll need your Year 12 student number and your UAC PIN.

You can also access your ATAR via UAC's free digital wallet, CredFolio, which allows you to securely store and share your ATAR. You'll be notified by email when your ATAR is issued to your wallet. We'll use the email address you have registered with NESA, so make sure you register a personal – rather than school – email address.

When you view your ATAR, you'll also be able to see:

- a list of the ATAR courses you studied and their category
- the number of units of each ATAR course that contributed to the calculation of your ATAR.

If you receive an ATAR between 0.00 and 30.00, your ATAR will be recorded as '30 or less'. If you haven't met the requirements of the ATAR, your ATAR will be recorded as 'not eligible'.

If you have a query about your ATAR, you can call UAC's ATAR Enquiry Centre, which operates when ATARs are released. The telephone number and opening hours are published on UAC's website and social media in December.

ATARs are also released to institutions to make offers to courses. If you apply for uni through UAC, your ATAR will also be shared with your school unless you ask us not to do this.

Limited ATAR

Some institutions will assess applicants based on a Limited ATAR, along with other selection criteria.

A Limited ATAR is calculated using the scaled marks from at least 1 unit of English plus the best 4 other units of Category A courses, rather than the best 10 units used for the standard ATAR.

To be eligible for a Limited ATAR, you must:

- be **over 20 years of age** on 1 March in the year you complete your HSC studies
- have taken between 5 and 9 units of ATAR courses, including at least 1 unit of English
- have completed all courses in the same academic year. You can't accumulate courses over several years.

Here is an example of an ATAR notification.

UAC

AUSTRALIAN TERTIARY ADMISSION RANK.

2024 ADVICE

Full name	JANE CITIZEN
Year 12 student number	12XXXXXX
AUSTRALIAN TERTIARY ADMISSION RANK (ATAR)	75.80 *SEVEN*FIVE***EIGHT*ZERO*

Shown below are the ATAR courses which were available for inclusion in the ATAR, together with the units that were actually included in the calculation. Information about ATAR eligibility and the calculation of the ATAR are available at http://www.uac.edu.au/atar

Course name	Category	Unit value	Units included in calculation of ATAR
English Standard	A	2	2
Geography	A	2	2
Legal Studies	A	2	1
Mathematics Advanced	A	2	2
Studies of Religion I	A	1	1
Hospitality Examination	B	2	2

HSC marks and the ATAR: what's the difference?

When Year 12 students receive their results, they often ask, 'Why is my ATAR low compared to my HSC marks?'.

The answer is that they are very different measures of achievement: HSC marks tell you about your performance in the HSC, whereas your ATAR tells you about your position, or ranking, in the HSC.

Marks around 70 in the HSC could lead to an ATAR in the 50s, while marks closer to 80 could lead to an ATAR around 80.00. This is because most students usually achieve marks between 70 and 80 (Band 4) and, when they are ranked, that group really spreads out. If you are getting marks in the 70s, do your best to get closer to 80 – it will make a big difference to your ATAR. The experience of Fred and Laura, set out on , clearly illustrates this point.

In 2023, many HSC courses had a median mark above 75.

HSC marks and ATARs are calculated separately using different methods.

Raw HSW marks

Performance	Position
NESA aligns raw marks to performance bands and calculates HSC marks.	UAC undertakes the scaling process and calculates ATARs.
The following table outlines the main differences between these two measures of achievement:

Your HSC marks	Your ATAR
Are presented as marks out of 100.	Is a rank, not a mark or a percentage.
Tell you how well you've performed in each of your courses, according to standards set by NESA.	Tells you where you're positioned overall in relation to other students.
Can only be compared to the marks of students who completed the same HSC courses.	Tells you how you compare with other students who have completed different combinations of HSC courses.
Are provided by NESA.	Is provided by UAC.

Fred and Laura

Fred and Laura studied the same courses for the HSC. When Fred and Laura finished their exams, their HSC marks and their ATARs showed the difference between their performance and their position.

In the table below you can see that Fred got marks of 70 for all his courses, while Laura's marks were all 80. Even though their HSC marks only differed by 10, the difference between their ATARs is 20.00. Their performance was similar, but their positions were quite different.

HSC marks between 70 and 79 are Performance Band 4 results. These are 'average' HSC marks, so a large percentage of students are in this category. This means that when students are ranked for their ATAR, those at the bottom of Band 4 (like Fred) are placed significantly lower than those at the top of Band 4 or higher (like Laura).

The 'percentile' column in the table below tells the story of their positions in more detail. For example, let's look at Biology. Laura's mark of 80 positioned her in the 71st percentile, which means she is placed in the top 29 per cent of students. Fred, on the other hand, with his mark of 70, is in the 39th percentile, so he is only in the top 61 per cent of students. Even though Fred and Laura's performances in Biology differed by 10 marks, their percentile positions differed by 32 (71 minus 39).

Fred ATAR: 59.90			Laura ATAR: 79.90	
HSC mark	Percentile	Course	HSC mark	Percentile
70	39	Biology	80	71
70	39	Business Studies	80	67
70	6	English Advanced	80	38
70	27	Mathematics Advanced	80	53
70	38	Modern History	80	68
70	10	Visual Arts	80	38

Your ATAR is a rank (not a mark) based on your position compared to other students in the state.

Example 1: Liam and Kellie

Let's consider students who have similar HSC marks in different courses. Liam and Kellie are in the 50th percentile in all of their courses.

Their average HSC marks are identical at 78.2, but their ATARs are quite different, 60.00 and 82.00 respectively.

Both Liam and Kellie are at the 50th percentile in all of their courses, so the reason for the difference in their ATARs is the difference in the strength of the competition in the courses they have chosen. The average scaled mean for Liam's courses was 43.4, whereas for Kellie's courses it was 63.2. Kellie has done better overall as she has competed against higher-achieving students than Liam. Consequently, her ATAR is higher.

Remember that the scaled mean of a course indicates the overall average academic achievement of the students in that course.

Example 2: James and Amy

Now let's look at James and Amy's HSC marks, which are shown in the following tables. Their average HSC marks are identical, 76.4, but their ATARs are quite different, 68.20 and 76.30 respectively.

Amy has an ATAR that is almost the same as her average HSC mark (76.4), whereas James's ATAR is much lower than his average HSC mark (76.4).

This is because Amy has been competing against higher-achieving students than James: the average of the scaled means of the courses taken by James is 44.2, whereas the average scaled mean for the courses taken by Amy is 61.4.

* The Fred + Laura example is based on 2023 HSC data. The Liam + Kellie and James + Amy examples are taken from the Report on the Scaling of the 2022 NSW Higher School Certificate, which can be downloaded from the UAC website.

Always choose your courses according to your interests, aptitude and aspirations, not because of how they might be scaled!

Liam
ATAR: 60.00

Course	Scaled mean	HSC mark
Design and Technology	45.4	79
English Standard	40.2	71
Music 1	42.8	84
Society and Culture	46.6	78
Vietnamese Continuers	41.8	79

Kellie

UAC

Around 50% of ATAR-eligible students do only 10 units in Year 12. The next most common pattern is 11 units (around 15%).

Essential advice for Year 11 students

ATAR calculation

From 2025, there will be no distinction between Category A and Category B HSC courses. Your ATAR will simply be calculated from your:

- best 2 units of English
- best 8 units from your remaining units.

Dropping courses

Before you drop an HSC course at the end of Year 11, ask yourself the following questions:

- **Will you still be eligible for an ATAR?**
  To be eligible for an ATAR in 2025, NSW Year 12 students must satisfactorily complete at least 10 units of ATAR courses. These ATAR courses must include at least:

  - ✅ 10 units of Board Developed courses
  - ✅ 2 units of English
  - ✅ 3 Board Developed courses of 2 units or greater
  - ✅ 4 subject areas.

  Within a subject area (eg mathematics) there may be a number of courses (eg Mathematics Standard 1, Mathematics Standard 2, Mathematics Advanced, Mathematics Extension 1, Mathematics Extension 2). If you study, for example, Mathematics Extension 1, Mathematics Extension 2, English Advanced, English Extension 1, English Extension 2 and Biology, you will not meet the four subjects requirement because you have only studied courses from three subject areas: mathematics, English and biology.

- **Is it a prerequisite for a tertiary course you might want to study?**
  Some institutions specify HSC courses you need to have completed in order to be offered a place in certain tertiary courses. If prerequisites exist, they are listed in the course descriptions on UAC's website.

- **Is it assumed knowledge for a tertiary course you might want to study?**
  Many institutions assume you have knowledge of specified HSC courses when you begin certain tertiary courses. If you haven't studied these HSC courses you can still be selected for the course but you may have some difficulty coping with your studies. Assumed knowledge is also listed in the course descriptions.

Don't think about how your courses are going to scale: you won't get a higher ATAR simply by studying, or not studying, a particular HSC course. The underlying principle of scaling is that you should be neither advantaged nor disadvantaged by choosing one HSC course over another.

Accelerating courses

If you accelerate your studies by attempting an HSC course in Year 11, your scaled marks for that course will be calculated in the year you complete it and contribute to your ATAR the following year.

Your Year 11 results

Your studies this year do matter. They are the foundation for your Year 12 courses. Also, if you apply for an early offer to university through the Schools Recommendation Scheme then the institutions will base part of their assessment on your Year 11 results. Early offer schemes run by individual institutions often assess your Year 11 results, too.

What you can do now

- If you are thinking of studying a law degree at UNSW Sydney, you can sit the Law Admission Test (LAT) in Year 11 because the results are valid for two years. If you're not happy with your results, you can try again in Year 12. Read more at lat.acer.edu.au.
- It's a good idea to get to as many uni open days as you can before you make your final course preference decisions next year. Many are held on the same day or weekend, so take the opportunity to attend some open days while you're in Year 11.

There are lots of
ways to reach
your **goal**, so
**think about
your Plan B**

Step 1:
Prepare

To make the best decisions about what you will do when you leave school, it pays to do your research and find out as much as you can about the areas that interest you.

Getting started

If you're not ready to dive into searching for specific uni courses, here are some ideas to help you narrow your focus:

- Consider all the fields of study that complement your personal interests and the subjects you enjoy at school.
- Research job growth areas and skills shortages in different fields and look at job vacancy and career websites. The National Careers Institute website is a good place to start.
- Meet with prospective employers and recruiters at expos and information sessions and consider volunteering to gain work experience in a field that interests you.

Which university, which course?

If you've decided that tertiary study is for you, the next questions are: which university or college and which course?

There are many different institutions of varying size and location to choose from and there are more than 2,000 undergraduate courses available through UAC.
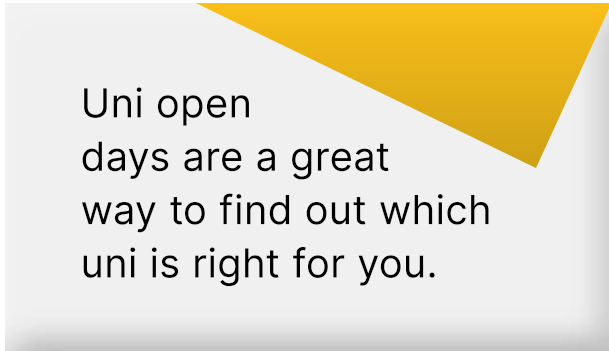

UAC handles applications for the universities and colleges included in the Course Finder, which starts on page 52.

Most public university courses for domestic students are Commonwealth-supported; this means the Australian Government subsidises your tuition fees. You can also get a government HECS-HELP loan for your contribution and repay your tuition fees once your income meets a certain amount.

Courses at private universities and colleges tend to be full fee-paying – this means your course costs are not subsidised by the Australian Government. However, you may be eligible for a government FEE-HELP loan.

Here are a few tips on researching your options:

- **Start with Course Compass**: visit uac.edu.au/course-compass to discover the paths taken by students with an academic background similar to yours.
- **Browse courses**: courses offered in 2024 are listed at the end of this booklet. Also explore the undergraduate course search on UAC's website. Courses offered in 2025 will be added to the website progressively throughout the year: check back regularly to see what's new.
- **Compare course structures and content**: although many institutions offer courses with the same name, the way they are taught can be very different. So looking at the areas of study and asking questions about the course content is important.
- **Have a Plan B**: research all institutions that offer the course you are interested in and the various pathways to that course.
- **Go to uni open days and info sessions**: explore the campus and ask questions. Most institutions will have faculty representatives and presentations to explain the content of courses being offered. Open day dates and locations are published in the key dates on the UAC website.

Uni open days are a great way to find out which uni is right for you.

How you're selected

To be selected for a place in a course you must:

- meet the entry requirements of the course and the admission criteria of the institution offering the course (check the course descriptions on the UAC website)
- compete against other applicants who also meet the entry requirements.

Selection rank

As a Year 12 student you will be selected on the basis of your selection rank (your ATAR plus any applicable adjustments – read page 37) for most courses.

Additional selection criteria

Some courses have additional selection criteria. You may need to attend an interview or audition, present a portfolio, provide a personal statement or sit a test. For example, if medicine interests you, you'll need to sit the University Clinical Aptitude Test (UCAT) in July.

Prerequisites and assumed knowledge

You may need to have completed certain Year 12 courses (prerequisites) before you can be selected for a particular tertiary course (eg a specific level of English or maths, or a specific science course).

Even if your preferred course has no prerequisites, the institution may assume you have knowledge of a specific HSC course or its equivalent when you begin your lectures. If you don't have the assumed knowledge but do have a suitable ATAR, you can still be selected for the course but you may have some difficulty coping with your studies.

Bridging courses can help you achieve the required level of assumed knowledge. However, these courses are not equivalent to the two-year HSC course and they may add significantly to your workload at university.

Recommended studies are HSC or equivalent courses that the institutions suggest will help you in your chosen tertiary course. If you haven't studied these courses, your chances of selection are not affected but, again, a bridging course might be useful.

Prerequisites, assumed knowledge and recommended studies are listed in the course descriptions on the UAC website.

> There are lots of ways to reach your goal, so think about your Plan B. Is there a different course – or a similar course at a different uni – that you could start as a pathway to your dream degree?

ACT students may need to know how their Senior Secondary Certificate courses compare to NSW HSC courses when applying to NSW universities. For a list of comparable ACT and NSW courses, visit the UAC website.

International students

International students applying to medicine, dentistry, occupational therapy and speech and language therapy courses may be required to sit the International Student Admissions Test (ISAT).

Some other courses may also require special categories of applicants to sit the ISAT. The university will notify you if you are required to sit this test.

For information about ISAT, visit isat.acer.edu.au.

What does it cost?

Your course costs will depend on the institution you attend and the type of course you enrol in. There are two main types of courses for domestic students:

1 Commonwealth-supported (CSP)

2 domestic fee-paying (DFEE).

Most university courses for Year 12 students are CSP. This means the Australian Government pays some of the course cost and you pay a student contribution.

Each institution sets its own student contribution level for each unit of study. The range varies depending on the area of study. For an indication of what you'll be required to pay, search for 'university course costs' on the UAC website.

DFEE courses are generally run by independent or private universities, colleges, institutes or training organisations. DFEE courses typically cost more up-front than CSP courses – you pay the full cost of your course. Your tuition fees are not subsidised by the Australian Government. Each institution sets its own tuition fees for its DFEE courses; the amount you pay depends on the institution and the type of course.

A small number of courses are:
■ a combination of CSP and DFEE (eg the bachelor program is CSP, the masters program is DFEE)
■ sponsored by the Australian Defence Force (ie the student contribution is paid by the Australian Defence Force)
■ exempt from student contributions
■ fee-paying with VET Student Loans for eligible students
■ fee-paying with no government loan scheme.

The course fee type is identified in each course description on UAC's website.

For the most up-to-date information on the fees that universities can charge and the Australian Government's Higher Education Loan Program (HELP), visit the Study Assist website at studyassist.gov.au and contact institutions directly.

Other costs

Apart from your student contribution, you need to think about other costs involved in going to uni. For example:
■ accommodation: Do you have to move out of home? Many universities offer on-campus accommodation, but you need to organise this early as demand can be high. Renting independently or in a share house with friends is another option. University housing services can help you to find other students in a similar situation.
■ travel costs: If you study full-time, you can use public transport at a cheaper rate. International students are eligible for discounted public transport fares on some tickets.
■ living expenses
■ textbooks and equipment
■ computer and internet access.

How to pay for university

There are various ways to pay for your uni course and support yourself while studying.

HECS-HELP

If you enrol in a CSP course, you can choose to pay all or part of your student contribution up-front, or defer payment by taking a HECS-HELP loan, which is repaid later through the tax system when your salary reaches a certain amount.

FEE-HELP

This Australian Government loan scheme helps eligible students pay their tuition fees for DFEE courses. It won't pay for other costs like accommodation or textbooks. Your FEE-HELP loan is repaid later through the tax system once your salary reaches a certain amount.

For information about HECS-HELP and FEE-HELP, visit studyassist.gov.au.

If you plan to pay your student contributions through the HELP scheme you must have a tax file number (TFN) and unique student identifier (USI) when you enrol at university. Apply online at:

- ato.gov.au for a TFN
- usi.gov.au for a USI.

Work

Most tertiary students have a part-time or casual job. Some work in the area of their study to gain experience before graduating.

Government assistance

The Australian Government provides financial help to eligible students through payments administered by Services Australia. Visit servicesaustralia.gov.au/students to find out if you are eligible for a payment.

You may be able to get one of these payments:

- **Youth Allowance**, a fortnightly payment for people aged 16 to 24 who are studying full-time or doing a full-time Australian Apprenticeship. Some job seekers aged 16 to 21 can also get it.
- **Austudy**, a fortnightly payment for people aged 25 or over who are studying full-time or doing a full-time Australian Apprenticeship.
- **ABSTUDY**, a group of payments for First Nations people studying or doing an Australian Apprenticeship. It can help with living costs, study costs and travel.
- **Pensioner Education Supplement**, a regular payment to help with study costs if students also get certain income support payments from Centrelink or the Department of Veterans' Affairs.

If you're moving for study, you may also be able to get:

- **Tertiary Access Payment**, a one-off payment of up to $5,000 for people moving from a regional or remote area for tertiary study within the year directly after completing Year 12
- **Relocation Scholarship**, an annual payment to help students getting Youth Allowance or ABSTUDY who need to move to or from a regional or remote area for higher education study
- **Fares Allowance** to help with the costs of travel for students who need to live away from their family home to study.

You may also be able to get extra help including:

- the **Student Start-up Loan**, a voluntary loan students getting Youth Allowance, Austudy or ABSTUDY Living Allowance can get up to twice a year. You have to pay the loan back once you start earning a certain amount of income
- the **Education Entry Payment** to help with the costs of study or training if you've been on certain payments from Services Australia
- **other concessions and allowances** such as a Health Care Card and Rent Assistance.

You can claim most payments online 13 weeks before your course starts using your myGov account linked to Centrelink.

For more information about Australian Government assistance for tertiary study costs, visit studyassist.gov.au.

Equity Scholarships available through UAC

Equity Scholarships provide financial support to students from low socio-economic backgrounds, particularly those receiving Centrelink income payments. They are funded by institutions.

Other scholarships

Institutions award merit-based scholarships to applicants based on a range of criteria such as:

- school examination results
- academic excellence
- ATAR
- course/faculty of study
- personal achievements such as:
  - leadership
  - creativity
  - self-motivation
  - communication skills
  - an outstanding ability in sport.

You need to apply directly to individual institutions for merit-based scholarships. To find out more, search for 'scholarships' on the institution websites.

International students

If you're not an Australian citizen, New Zealand citizen, or permanent resident of Australia, but are studying an Australian Year 12, International Baccalaureate or New Zealand NCEA, you apply through UAC as an international student.

Not all domestic courses are available to international students. Check the international course search on UAC's website.

Courses available to international applicants are known as international fee-paying (IFEE) courses. Each institution sets its own tuition fees for international students, so fees vary between institutions and courses. International students must pay these course fees up-front.

$(YOU)^{us}$

#1 UNI IN SYDNEY FOR TEACHING QUALITY
THAT'S YOU TO THE POWER OF *us*

CRICOS Provider 00002J

MACQUARIE
University
SYDNEY · AUSTRALIA

There's only one place to put the course you most want to get into - **#1 in your preferences**

Step 2: Apply

Now that you've done your research and decided on the courses you'd like to study, you're ready to apply. Every year, around 45,000 Year 12 students apply for uni through UAC.

Applying through UAC

You can apply through UAC if you're:

■ an Australian citizen

■ a New Zealand citizen

■ a permanent resident of Australia

■ the holder of an Australian permanent resident humanitarian visa.

Applying through UAC means you don't need to apply separately to each institution. You can apply for up to five courses at any of our participating institutions.

It also means you can apply for early offer schemes processed through UAC (the Schools Recommendation Scheme) and the Educational Access Scheme.

Through these schemes, the institutions are able to consider factors in addition to your ATAR, such as your Year 11 results and certain challenges you've faced while at school. Read more about them on pages 27 to 32.

UAC processes the applications but the institutions decide who receives an offer. UAC's participating institutions are listed on page 53.

How to apply

Applications open on the UAC website in April. By applying before the end of September, you'll avoid the significant increase to processing charges between the end of September and early February the following year, which is the final closing date for semester 1 courses.

If you are also applying for the Schools Recommendation Scheme, you'll need to complete both applications by mid-September.

Can't find the course you're after? Courses will be available for selection in the application once institutions confirm the details. Complete your application by selecting a different course, and change your preferences later. All courses should be available by early August.

International students

Some international students can apply through UAC. If you're not an Australian or New Zealand citizen or a permanent resident of Australia, you can apply for undergraduate courses through UAC if, in 2023 or 2024, you completed/ are completing:

■ an Australian Year 12 qualification

■ an International Baccalaureate

■ a New Zealand NCEA Level 3.

All other international students need to apply directly to the institution.

International applicants are encouraged to apply by the end of September for courses starting in semester 1, as the processing fee increases after this date. However, applications for semester 1 don't close until early February. You can list up to six courses in your application.

If you're an international student you will receive advice of a conditional offer from UAC approximately 48 hours after you apply. This is for visa purposes only and does not guarantee a place in a course. Read page 45 for more information.

Application checklist

Here's what you need to have ready to apply:

■ your Year 12 student number (issued by NESA or ACTBSSS) and UAC PIN (emailed to you in April)

■ a private email address (not a shared or school address)

■ your Unique Student Identifier (USI) (if you don't already have one, go to usi.gov.au)

■ your UCAT candidate number, if relevant (eg if you're applying for a medicine degree)

■ a list of your chosen courses and their course codes (up to five)

■ a credit card (Mastercard or Visa) to pay the processing charge. If you're a domestic student, you can also pay by PayPal or BPay.

Do you
have your
Unique Student
Identifier (USI)?
You need it to enrol
and get a HELP loan.
Go to usi.gov.au.

International Baccalaureate students: Your Year 12 student number is your IB code. Your UAC PIN is the first four digits of your date of birth.

UAC PIN and application number

NSW and ACT students will be issued with a four-digit UAC Personal Identification Number (PIN) in early April. You will need your UAC PIN to apply for uni and to log in to get your ATAR.

A nine-digit UAC application number is generated after you enter your personal details. You will need this number to log back in to your application.

Keep these numbers handy and don't share them with others.

Listing qualifications

Your Year 12 qualification will be added to your application automatically when ATARs are released. International Baccalaureate students need to authorise the IB to release their results to UAC.

Most Year 12 students will have no further qualifications to add.

The work experience question in the application isn't relevant to Year 12 students. The question is there for applicants with other qualifications, such as work experience equivalent to 12 months or more of full-time employment. As a Year 12 student, it is not necessary to list or supply your employment experience as entry to tertiary study is based on your selection rank (ATAR + adjustment factors) and other selection criteria, where applicable.

Listing preferences

As an undergraduate applicant you can list up to five different courses at five different institutions. However, you can also apply with just one preference, particularly if you are still undecided about what you want to do. When you're ready, you can change your preferences at no extra cost.

Some courses have early closing dates: check the course descriptions on UAC's website for details.

Changing your mind

Preferences can be changed quickly, easily and as many times as you wish at no extra cost. When you get your ATAR in December, you can make more informed choices about the university courses you want to apply for and change your preferences before the main offer rounds for Year 12 applicants.

Why the order matters

You can only receive one offer in each offer round. During the selection process, your course preferences are considered one at a time in the order in which you've listed them. If you're not competitive enough to be selected for your first preference, you'll be considered equally with all other eligible applicants for your second preference, and so on.

UAC recommends you list your 'dream preference' at number one, but **always have a back-up plan**: at the bottom of your preference list include one or two 'safe' options to ensure that you get an offer. These could include lower-level courses, such as certificates and diplomas, which can act as a pathway into your desired degree. Read more about these pathways on .

Fred and Laura

Fred is interested in sports-based courses, including exercise and sport science, exercise and health science, human movement science, sports coaching and sports psychology.

He's also interested in business courses, including accounting, banking and finance, commerce, economics, management, marketing and sports management.

Because he has a broad range of courses to choose from, Fred has decided to list five courses in his application:

Laura is certain of the courses she wants to study and chooses four for her application:

1. Bachelor of Management (Sport Business): this course combines both his areas of interest – business and sport – but he's not sure he will have the ATAR to make the selection rank (the course listing indicates it was 80.10 last year). Fred's preferred institution lists any 2 units of English as assumed knowledge for this course. He has studied this in the HSC.

2. Bachelor of Business (Sports Management): this course is in the same area as the course he has as his first preference but it is at a different university and had a lower selection rank last year.

3–5. Other business courses: these courses can lead him to careers in banking, finance, marketing and management. He is confident that his ATAR will be high enough for him to get an offer to one of these courses.

1. Bachelor of Agriculture: having grown up on a farm, Laura is interested in the land and how to care for it for future generations. Her preferred institution lists Biology and/or Chemistry plus Mathematics Advanced as recommended studies for this course. Laura has studied Biology and Mathematics Advanced.

2. Bachelor of Agricultural Business Management.

3. Bachelor of Environmental Science.

4. Teaching course: this course will allow her to focus on her interest in art.

With the HSC subjects they've chosen, both Fred and Laura would, according to the institutions, have a good background knowledge of key subjects in these degrees and would likely do well if they decided to study them.

After you apply, it's free to change your course preferences as many times as you like.

Use the name on your official ID in your application: they need to match when you enrol.

The course listing starting on page 58 shows the lowest selection rank required to receive an offer to each 2024 semester 1 course in the main Year 12 offer rounds. Use it as a guide to your chances of being selected. The selection ranks required to receive offers to 2025 courses won't be known until those offers have been made: they might be lower, higher or the same.

Supplying documents

Year 12 students usually do not have to supply any documents with their UAC application. If you do need to provide supporting documents, you will be prompted to do so in your application. The required documents will also be listed in your Confirmation of Application, which you can download when you complete your application.

If you also apply for the Educational Access Scheme, you'll need to provide various supporting documents, so start preparing and collecting these as soon as you can and avoid a last-minute rush. (Read more under 'Educational Access Scheme' on pages 28 and 29.)

Non-ATAR selection criteria

Year 12 students are selected on the basis of their selection rank (ATAR or equivalent + adjustment factors) for most courses. However, some courses have other selection criteria. These can include interviews, auditions, portfolios, supporting statements, questionnaires and tests.

Check if any of your courses have any non-ATAR selection criteria or particular course requirements. These can be found in the course descriptions on UAC's website. For further information, contact the institution directly.

University Clinical Aptitude Test

If you wish to study medicine (or some health science degree programs), you'll need to sit the UCAT during Year 12. It is held in July and August but you have to register between March and May. The test is used specifically to assist with the selection of students into undergraduate health science degree programs at certain universities. If you choose course preferences that require you to sit the UCAT, you'll be asked to include your UCAT candidate number on your UAC application. Your UCAT results will be sent directly to the institutions, which match them to your application for admission to the relevant courses. For more information, visit ucat.edu.au.

Special requirements

If you're applying for entry into health/welfare-related and teacher education courses, be aware that there are special requirements relating to:

- criminal record/working with children checks
- clinical placements
- procedures for employment after completing the course.

There are also specific English language proficiency requirements for nursing applicants.

For details, go to uac.edu.au/special-requirements and check individual course descriptions on the UAC website.

These requirements and policies are subject to regular review, so check with institutions before you apply for these types of courses.

Interviews, statements, auditions and portfolios

All interviews and auditions are organised by you and the institution. You'll need to make these arrangements in addition to listing the course in your UAC preferences.

If a portfolio or personal statement is required, it will be listed in the course description on UAC's website. It will also be flagged in your application. Follow the institution's instructions for how to submit the portfolio or personal statement.

Each institution has its own policy for determining how you will be assessed. Some institutions may allocate a weighting for each type of selection criteria. For example, the ATAR might be worth 50 per cent, a portfolio 25 per cent and an interview 25 per cent. At other institutions, a minimum ATAR may be used to filter applicants, and those above the minimum ATAR assessed and ranked on the other criteria. Or the portfolio or audition may take precedence over other criteria, including the ATAR. For further information, contact the institution.

Gap years

If you're intending to take a gap year, UAC recommends that you apply now and defer. Current Year 12s are eligible for early offer schemes and selection rank adjustments (eg recognition of achievement in an HSC course or attendance at a regional school). Any adjustments will improve your selection rank. In addition, depending on the institution, the Educational Access Scheme and Equity Scholarships may only be available to current school leavers.

How to apply for early offers

While the ATAR is still the main selection tool used by most unis, there are other ways for you to show that you're ready to succeed at tertiary study.

Many institutions have one or more early offer schemes for Year 12 students. Through these schemes, the institutions will assess you using criteria other than (or in addition to) your ATAR.

Always check the institution websites to make sure the courses you are applying for are covered by the schemes.

Schools Recommendation Scheme

Institutions use the Schools Recommendation Scheme (SRS) to make early offers to current Year 12 students who have applied for undergraduate admission through UAC. They do this by taking into consideration criteria beyond, or in conjunction with, the ATAR.

This criteria can include your:
■ school's rating of your aptitudes
■ Year 11 studies
■ Educational Access Scheme (EAS) application (if applicable).

Each institution has its own policies on determining SRS eligibility and making offers.

Eligibility

SRS is open to current Year 12 applicants who are attempting one of the following:
■ an Australian Year 12 qualification
■ an International Baccalaureate in Australia

and who are:
■ UAC applicants for undergraduate admission in the current admissions year
■ Australian or New Zealand citizens
■ permanent residents of Australia or holders of Australian permanent resident humanitarian visas.

International students can't apply for SRS.

In 2023, unis made 14,924 conditional or unconditional SRS offers to Year 12 students before ATARs were released.

Applying

To apply for SRS, follow the link that will display after you have completed your UAC application for tertiary study. After you have submitted your application, UAC will ask your school to provide a professional assessment of your suitability for tertiary study.

Assessment and offers

After your school has completed its assessment, your application will be processed by UAC and then considered by participating institutions.

In most cases, institutions make offers to successful applicants before ATARs are released. There are two types of SRS offers:

■ unconditional offers (which have no further conditions for you to meet)
■ conditional offers (which require you to meet additional conditions, such as a minimum ATAR).

Direct application to the uni

Some of our participating institutions also take direct applications for early offers to their undergraduate courses. This means you can submit a UAC application and a direct application to the institution.

However, if you do complete both a UAC application and a direct application, we highly recommend that you don't duplicate your course preferences. Make the most of both applications and choose different preferences in each. That way, you can potentially receive offers to different courses.

Check with the uni as to how and when it will make its direct offers. You can read about UAC offers in 'Step 4: Accept', starting on .

Interested in an early offer? Scan for application details and admission criteria or go to uac.edu.au/early-offers.

Don't duplicate your course preferences across your UAC application and your direct application to a uni: make the most of both applications and choose different preferences in each.

Educational Access Scheme

The Educational Access Scheme (EAS) recognises UAC applicants who, due to circumstances beyond their control or choosing, have faced challenges that seriously affected their educational performance during Years 11 and 12 (or equivalent).

When assessing your application, institutions will actively consider the adversities you have overcome and, as a result, may make you an offer to a course even if your ATAR (or equivalent) is below the required selection rank.

Eligibility

The educational challenges and disadvantages universities will consider span a range of experiences and include:

■ financial hardship
■ attending three or more different secondary schools in Australia
■ moving interstate
■ the death of an immediate family member or close friend
■ a life-threatening illness
■ the divorce or separation of parents

- work requirements to support your family
- excessive responsibility for care of children or family members
- a severe and long-term medical or psychiatric condition or disability.

EAS doesn't cover temporary physical ailments like breaking your arm just before your exams. In this situation you are encouraged to submit an illness/misadventure appeal form to NESA via your school principal.

International students can't apply for EAS.

Applying

First of all, you need to submit your undergraduate application through UAC. Select 'Apply for EAS' at the bottom of the undergraduate application confirmation page or log in to your completed undergraduate application and select 'EAS'.

You can then apply for all the disadvantages that are applicable to your situation. You'll need to submit separate supporting documents for each disadvantage.

For example, if you apply under the disrupted schooling category because you attended three or more different secondary schools during Years 10, 11 and 12, you'll need to submit:

- an applicant statement detailing the schools you attended and the reasons you changed schools during this period
- a record of attendance from each school you attended.

Automatically generated applications

After you've applied for undergraduate admission through UAC, we will automatically generate an EAS application for you (ie you don't have to submit an application) if:

- you are a 2024 Year 12 student who attended a school located in a rural, regional or remote area as determined by the Australian Bureau of Statistics

or

- the residential address you entered in your UAC undergraduate application is identified by the Australian Bureau of Statistics as being in the lowest 25 per cent of socio-economic disadvantage in Australia.

If we automatically generate an EAS application for you, we'll send you a confirmation email the day after you submit your undergraduate application.

To claim additional disadvantages, you still need to submit an EAS application, but you don't need to include details about the disadvantage in your automatically generated application.

Assessment

EAS applications are assessed centrally at UAC but individual institutions have their own policies on how EAS assessments are used to allocate offers.

Institutions use EAS assessments in two ways:
1. they set aside a number of places
2. they apply adjustments that increase your selection rank.

You won't be notified of any increase to your selection rank; it will simply make you more competitive for a place at the institution.

However, around the time you get your ATAR, UAC will inform you of your eligibility for all institutions regardless of your course preferences. This will help you make decisions about your final preferences in time for the first offer round after ATARs are released.

Note that you may be eligible for EAS consideration at an institution and not be offered a place. This is because you still have to compete against other applicants for an offer to your preferred course.

> Scholarships range from small one-off payments to several thousand dollars each year of your degree.

Elite athlete and performer schemes

To apply as an elite athlete or performer, contact the institution directly in addition to applying through UAC. Check with the institutions about application deadlines and the supporting documents you need to provide.

Note that you cannot apply for the Educational Access Scheme on the basis of missing periods of schooling due to sporting or performance commitments.

Equity Scholarships

Equity Scholarships provide financial support to students from low socio-economic backgrounds, particularly those receiving Centrelink income payments. They are funded by institutions.

Eligibility

If your family is receiving a Centrelink or other Australian Government means-tested income support payment, such as a Disability Support Pension, Parenting Payment (single) or Carer Payment, you are considered to be financially disadvantaged.

You may also be considered for an Equity Scholarship if you meet one or more of the following criteria:

- have carer responsibilities
- have financial hardship
- have a long-term medical condition/disability or ongoing effects of abuse
- reside in a regional or remote area
- have sole parent responsibilities.

If you are Indigenous, have humanitarian refugee status, and/or have been in out-of-home care, this will also be considered.

Be aware that meeting the scholarship eligibility criteria doesn't guarantee that you will be awarded a scholarship. There are a limited number of Equity Scholarships and there are more applicants than scholarships. Individual institutions make offers as a result of a competitive process. If you're unsuccessful it doesn't mean that you're not in need; rather, it means that there are other applicants who've been assessed as being in greater need.

Applying

Submit an Equity Scholarship application through UAC's website.

By submitting just one Equity Scholarship application through UAC, you will be considered for all Equity Scholarships for which you are eligible. You'll need to supply supporting documentation with your application. For example, if you apply under the long-term medical condition category, you'll need to submit:

- a medical impact statement completed by a registered health professional treating you for your condition
- an educational impact statement completed by someone at your school such as a teacher, counsellor, principal or another responsible adult who can comment on the impact of your disadvantage on your studies.

EXCELSIA COLLEGE

Offers

Institutions make their Equity Scholarship offers after assessing applications submitted as part of a competitive application process. The Equity Scholarship application gathers sufficient information from applicants to determine which applicants best meet the eligibility criteria.

An institution can only award you an Equity Scholarship if you've received an offer of admission to that institution or are currently enrolled with that institution.

Studying interstate

If you want to study in another state, apply through the tertiary admissions centre in that state or directly to the institution.

- **Victoria**: Victorian Tertiary Admissions Centre, vtac.edu.au.
- **Queensland**: Queensland Tertiary Admissions Centre, qtac.edu.au
- **South Australia and Northern Territory**: South Australian Tertiary Admissions Centre, satac.edu.au
- **Western Australia**: Tertiary Institutions Service Centre, tisc.edu.au.
- **Tasmania**: University of Tasmania, utas.edu.au.

Do not submit multiple Equity Scholarship applications: your one application is valid until March 2025.

Pathways to degrees

If you're concerned that you won't meet the lowest selection rank for a degree course, or you'd like further support and preparation before studying at degree level, take a look at the lower-level courses that many institutions offer, such as diplomas.

These courses can act as a pathway into your desired degree. Consider including one or more as a course preference in your application.

Also, tick the box in the UAC application that asks if you would like to receive information on other study options if you do not receive an offer to any of your selected courses.

Non-degree courses

Institutions often offer non-degree courses, such as:

- foundation studies
- preparatory courses
- certificate, diploma or associate degree courses.

If you successfully complete one of these courses, an institution may guarantee you entry into particular degree courses. Otherwise, you can use your new qualification to apply and compete for admission to degree courses.

You can apply for some of these courses through UAC, or you may receive an offer to one of these courses if you don't receive an offer to any of your preferences; others require you to contact the institution directly.

TAFE qualification

Another option is to obtain a TAFE diploma and use that qualification in an application for admission to degree courses. Some institutions might even consider a Certificate III or IV qualification. Speak to the uni or college about their admission criteria, as each institution is different.

You can also study a tertiary preparation course at TAFE; for example, TAFE NSW offers a Certificate IV in Tertiary Preparation (otherwise known as the Tertiary Preparation Certificate), which covers study skills as well as subject-specific content.

For information about Vocational Education and Training (VET) providers and training courses, go to the 'Learn and Train' section of yourcareer.gov.au.

Entry schemes

Some institutions have entry schemes or programs through which they consider applicants who don't meet the usual minimum admission criteria of the institution. In addition, most institutions have an admission scheme specifically for First Nations students. Contact the institution for information about these schemes and programs.

How to apply for medicine, dentistry and veterinary courses

Entry into undergraduate medical degrees is highly competitive: make sure you're in the running by getting your application in on time and keeping the interview dates clear.

Check with each university to confirm application deadlines and requirements and to ask any questions you have about the selection process.

Admission requirements for most medical degrees include the following steps.

1   **Register for and sit UCAT ANZ**
You must register for the 2024 UCAT ANZ between March and May and testing begins in July. Register at ucat.edu.au.

2   **Submit a direct application to the university faculty**
Check UAC course descriptions to see if this is required and to check application deadlines.

3   **Submit a UAC application**
In your UAC application, first on your course preference list should be the course you'd most like to do, followed by your second, third, fourth and fifth preferences. If you're not selected for your first preference, you'll be considered equally with all other eligible applicants for your second preference, and so on.

4   **Attend an interview**
In-person interviews and assessments are an important part of the selection process for all medicine, dentistry and veterinary medicine degrees.

You'll be selected for an interview based on your UCAT results or your ATAR, or both. The order of your course preferences in your UAC application does not have an impact on your selection for interview.

Institutions advise you not to pay for interview coaching: they are looking for authentic responses from passionate students from diverse backgrounds.

Courses you can apply for as a Year 12 applicant

Undergraduate medicine

Start your medical studies in first year.

Charles Sturt University/Western Sydney University
Indicate your campus preference in your UAC application.

Course code:
725505

Course name:
Doctor of Medicine (Joint Program)

Duration:
5 years

UCAT required:
Yes

University of Newcastle/ University of New England
Indicate your campus preference when you submit your direct application to the program.

Course code:
785000

Course name:
B Medical Science and Doctor of Medicine (Joint Medical Program)

Duration:
5 years

UCAT required:
Yes

UNSW Sydney

Course code:
428000

Course name:
B Medical Studies/ Doctor of Medicine (can add B Arts)

Duration:
6 years
(8 years if B Arts is added)

UCAT required:
Yes

Postgraduate medicine

Start your medical studies after completing the undergraduate degree. Progression requirements apply.

University of Notre Dame

Course code:
650371/73
650372/74
(undergrad hons)

Course name:
B Biomedical Science (Assured Pathway to Doctor of Medicine)

Duration:
7-8 years (3 or 4 years undergrad + 4 years postgrad)

UCAT required:
Yes

University of Sydney

Course code:
513715

Course name:
B Arts/ Doctor of Medicine

Course code:
513720

Course name:
B Science/ Doctor of Medicine

Duration:
7 years
(3 years undergrad + 4 years postgrad)

UCAT required:
No

Pathways to graduate medical programs

You can apply for these programs straight from school. They are designed as pathways to the Doctor of Medicine; however, you will still need to meet all the admission requirements for the postgraduate degree.

Australian National University

Bachelor of Health Science

Griffith University (Gold Coast campus)

Bachelor of Medical Science (apply via QTAC)

Macquarie University

Bachelor of Clinical Science

University of Wollongong

Bachelor of Pre-Medicine, Science and Health

You can also apply for Doctor of Medicine programs if you have completed other undergraduate degrees (even if they're in another field of study); you just need to meet the admission requirements and compete against other applicants for a place.

Dentistry

Charles Sturt University

Course code: 214738

Course name: B Dental Science

Duration: 5 years

UCAT required: Yes

University of Sydney

Course code: 513705

Course name: B Science/ Doctor of Dental Medicine

Duration: 7 years

UCAT required: No

Oral Health

Charles Sturt University

Course code: 214384

Course name: B Oral Health (Therapy and Hygiene)

Duration: 3 years

UCAT required: No

University of Newcastle

Course code: 483750

Course name: B Oral Health Therapy

Duration: 3 years

UCAT required: No

University of Sydney

Course code: 513700

Course name: B Oral Health

Duration: 3 years

UCAT required: No

Veterinary Science

Charles Sturt University

Requires supplementary application form to demonstrate commitment to veterinary studies.

Course code: 214964

Course name: B Veterinary Biology/ B Veterinary Science

Duration: 6 years

UCAT required: No

University of Sydney

Requires situational judgment test and statement of commitment to veterinary studies.

Course code: 513970

Course name: B Veterinary Biology/Doctor of Veterinary Medicine

Duration: 6 years

UCAT required: No

Scan for the latest application details for Medicine, Dentistry and Veterinary courses or go to uac.edu.au/medicine.

Apart from a few days before each offer round, you can **change your course preferences** at any time.

Step 3: Manage

Once you've applied for uni, it's important to know how to manage your application. This means understanding your selection rank and how to change your preferences.

Adding your ATAR

UAC will automatically add your HSC results and ATAR to your application when these results are released at the end of the year. International Baccalaureate students need to authorise the IB to release their results to UAC.

Changing your preferences

You can add, delete and change the order of your preferences online as often as you like by logging in to your application on <u>UAC's website</u>. There is no charge to do this but you will need your UAC application number and four-digit UAC PIN to log in. You won't be able to choose a course as a preference if the course closing date has passed.

Once you've received your HSC results and your ATAR and have an idea of the selection rank adjustments you may be eligible for (read more about these on the <u>next page</u>), it's time to go back to your preferences to make sure they're realistic. Perhaps you've done better than you expected and want to change the courses you applied for, or maybe you've rethought what you really want to study.

Look at last year's lowest selection ranks for your preferred courses. These are included in the course listing in this book. If you're concerned that you're not going to meet the selection ranks for these courses, consider adding one or two pathway courses to your list of preferences.

Pathway courses generally include non-degree courses such as foundation studies, preparatory courses and certificates, diploma or associate degree courses. If you successfully complete a pathway course, an institution may guarantee you entry into a particular degree course. Otherwise, you can use your pathway course studies to apply and compete for admission to other degree courses. You may also be awarded credit for some of your pathway course studies.

Also check that you're not wasting preferences by listing courses that have additional selection criteria or prerequisites that you haven't met.

Make sure you do this by the final closing date for change of preferences for the next offer round. For the main Year 12 offer round, this is just a couple of days after you receive your ATAR. Change of preference dates for all offer rounds can be found on UAC's website.

Selection ranks

Your selection rank determines whether you are eligible for selection to each of your course preferences. As a Year 12 student, your selection rank is usually your ATAR. However, if other factors are taken into consideration, these will be combined with your ATAR to adjust your selection rank and make it higher than your ATAR.

The course listing starting on <u>page 58</u> shows the lowest selection rank required to receive an offer to each 2024 semester 1 course in the main Year 12 offer rounds.

The interaction of three factors determines the lowest selection rank for each course:

1. the number of places available in the course

2. the number of applicants for the course

3. the quality of those applicants.

These three factors mean that the lowest selection ranks can change from year to year and are not known before applicants are selected for a particular course in a particular year.

The lowest selection rank does not represent the average ability of the students accepted for the course and does not reflect the difficulty or quality of the course.

Selection rank adjustments

Many applicants receive an offer to a course even though they have an ATAR below the published lowest selection rank. This is because other factors have been taken into consideration in combination with their ATAR and their selection rank for that course has been adjusted and is higher than their ATAR.

Example

Applicant	Selection rank
1	**89.00** (ATAR of 89.00)
2	**88.00** (ATAR of 87.00 plus adjustment of 1 point)
3	**87.00** (ATAR of 83.00 plus adjustment of 4 points)
4	**86.00** (ATAR of 86.00)
5	**85.00** (ATAR of 83.00 plus adjustment of 2 points)
6	**84.00** (ATAR of 84.00)

In the example above, offers will be made to applicants 1, 2 and 3. Applicant 4 won't receive an offer, even with an ATAR higher than applicant 3, and applicant 3 will receive an offer even though their ATAR is below the lowest selection rank. The lowest selection rank required to receive an offer to Course A will be 87.00.

Selection rank adjustments are due to factors such as strong performance in HSC subjects, living or attending school in a certain area, and applying for consideration through the Educational Access Scheme.

Selection rank adjustments are applied differently from institution to institution and from course to course within the same institution. Visit each institution's website for details.

You need to know that:
- adjustments do not change your ATAR; they change your selection rank for a particular preference
- the lowest course selection ranks published in this booklet incorporate these adjustments
- your selection rank = your ATAR + adjustments
- institutions automatically adjust your selection rank if you are eligible
- you will not be notified of your selection rank.

As selection rank adjustments are course-specific, your selection rank can be different for each of your course preferences.

Fred and Laura

Laura has found out that the institution she's applied to makes adjustments to the selection ranks of applicants who, like her, live or attend school in its catchment area. These adjustments will be automatically added to her application for courses at that institution – she doesn't have to do anything. Laura's selection rank may also be automatically increased by the institution because her attendance at a regional school makes her eligible for Educational Access Scheme consideration.

Fred isn't eligible for these selection rank adjustments as he lives outside the catchment area of the institution he wants to attend and he didn't attend a regional school.
Fred and Laura

It's mid-December and Fred and Laura have both received their ATAR. Fred's ATAR is 59.90 and Laura's ATAR is 79.90. Now that they know their ATARs, they can realistically review their course choices.

Fred realises he is unlikely to receive an offer to his dream course, a Bachelor of Management (Sport Business), as the lowest selection rank for this course last year was much higher than his ATAR. So as his second preference he's included another business degree that previously required a lower selection rank.

He speaks to an admissions officer at the university who advises him to list two pathway courses as well. A pathway course is a lower-level course that requires a lower selection rank. It may help him gain entry into the degree course the following year if he completes it successfully. For example, if Fred completes a diploma course successfully he can apply for entry to the degree course the following year. He may even gain credit for prior learning. Fred puts a Diploma of Business as his third preference.

Laura is pleased with her ATAR and is still keen to study at her local university. Over the holidays she's been doing lots of reading about the environment and has found out that by studying a Bachelor of Environmental Science she will have a wide range of careers available to her, including national parks and protected area management, environmental protection and environmental education and interpretation. She has decided to change her preferences and make this her first preference.

International students

The lowest ATARs and selection ranks for international applicants applying through UAC may differ from those of domestic applicants. Use the international course search on UAC's website.

Dates for offers and deadlines for changing preferences are also different: visit UAC's website.

Where might your course take you?
We can help you explore your options.

Start your journey by visiting
yourcareer.gov.au/schoolleaver

Australian Government

Your Career™
National Careers Institute

Accept any offer you receive: there's no guarantee you'll get another one. If you do receive another offer, you can decide which one is best for you.

Step 4: Accept

Most offers to Year 12 applicants will be made after ATARs are released, but there are many offer rounds throughout the year. Understanding how to accept and manage your offers will help you make the most of your application.

Offer rounds

UAC advises students of their offers on behalf of the participating institutions. There are a number of offer rounds throughout the year. All the offer round dates are published on UAC's website.

Main rounds for Year 12 students

Although some Year 12 students receive early offers, the most important offer rounds for Year 12 students are in December and January, after ATARs are released. This is when most Year 12 applicants receive their offers.

Early offers

The offer rounds before December are usually for early offer schemes such as SRS, ADFA (Australian Defence Force Academy) courses, and some non-Year 12 applicants. Not all institutions participate in these early rounds, so if you don't receive an early offer and aren't in one of the categories listed, there's no need to worry.

Late offers

Offer rounds after mid-January are for entry to courses that still have vacancies or for new courses that begin later in the year.

Receiving your offer

We'll send you your offer in an email, so it's important that we have your correct email address. This can be updated at any time via your application.

The institutions (not UAC) decide who receives offers. So, if you have questions, you'll need to speak to the admissions office at the institution. You can ask why you didn't receive an offer and what other study options are available to you.

Slipback offers

Some institutions may make you an offer to a lower-level course if you're not eligible or competitive enough for the course to which you've applied.

This means that you may receive an offer to a lower-level course in the same area at the same institution rather than the course you listed in your preferences, even if you didn't apply for it. For example, you may get an offer to a Diploma in Marketing if you applied for, but weren't competitive enough for, the Bachelor of Marketing at the same institution.

If you successfully complete a course such as a diploma, an institution may guarantee you entry into some degree courses. You may also be awarded credit for some of your studies.

Accepting your offer

If you receive an offer in one round, don't assume that you'll receive another offer in a later round. You must accept your offer by the date indicated in your offer material, otherwise your offer may lapse and go to another applicant in the next round.

Accepting an offer doesn't stop you from being considered in later offer rounds, but you must remove the successful course from your preferences list – or move it to the bottom of the list – to prevent it blocking offers to lower preferences in future rounds.

If you receive an offer in one round and accept it, then receive an offer in a later round, you can choose either to:

- keep your previous offer and not accept your new offer
- accept your new offer and withdraw from the course you've already accepted.

Receiving further offers

Once you've received an offer, you can't be made an offer to any lower course preferences unless you change your preferences.

So, if you receive an offer to your first preference, you won't be considered for further offers in subsequent rounds unless you move that course down to the bottom of your list or remove it entirely. (Before you do this, don't forget to accept the course you've already been offered!)

If you receive an offer to a lower preference, you will automatically be considered for higher preferences in the next round.

Example
Let's say you have the following five courses listed as preferences and you receive an offer to your second preference:

Preferences	
1	Bachelor of Animal Science
2	**Bachelor of Zoology**
3	Bachelor of Science (Physics)
4	Bachelor of Medical Science
5	Bachelor of Rural Science

First, you should accept your offer to Bachelor of Zoology.

If you leave your preferences as they are, then in subsequent rounds you will only be considered for your first preference, Bachelor of Animal Science.

But if you want to be considered for courses other than Bachelor of Animal Science, you can change your preferences in any way you like – even add new courses to your list – just make sure you have a realistic chance of meeting the lowest selection rank and can satisfy any additional course requirements.

Say you change your preferences to the following:

Preferences	
1	Bachelor of Animal Science
2	Bachelor of Science (Physics)
3	Bachelor of Biotechnology
4	Bachelor of Scientific Studies
5	Bachelor of Teaching/Bachelor of Science

You'll notice that Bachelor of Zoology has been removed from the list. As long as you've accepted your offer to this course, you won't lose your place. If you now receive an offer to a course in your new list, you can decide whether to accept it and withdraw from Bachelor of Zoology, or not accept the new offer and keep your place in Bachelor of Zoology.

If you reject an early round offer or let it lapse, and then change your mind, you'll need to speak with the institution's admissions office as only the institution can reinstate the offer. Also, if you leave the offered, but rejected, course as your first preference, no further offers can be made because the rejected offer will 'block' any new offers to lower preferences.

Finalise your choices by the closing date for change of preferences for the next round. These dates are available on UAC's website.

Courses that start later in the year are progressively added to UAC's online course search so check for these when changing your preferences. Not all institutions offer courses that start later in the year.

Direct offers from unis

If you have applied directly to an institution, as well as through UAC, you can receive offers from both UAC and the institution. Then it's up to you to decide which one to accept.

Deferring

After you've received an offer, you may decide that you'd like some time away from study. Some institutions let you defer your course, usually for six months or a year. You are not usually permitted to undertake tertiary study during this period.

Most institutions will ask you to provide a statement to explain why you want to defer and what you'll be doing during this period. There may also be a fee.

If your deferment application is successful, you'll receive written confirmation from your institution with instructions on how to take up your deferred offer. Read these instructions carefully.

Enrolment

Each institution has its own procedures for enrolment. When you apply, make sure the name on your application matches your official ID (birth certificate, passport, citizenship documents). You'll need your ID when you enrol and there may be problems if the name on your ID doesn't match your offer letter.

Organise your paperwork

When you enrol, you'll need to enter your Unique Student Identifier (USI). You will have already entered this in your application. You can create a USI at usi.gov.au.

If you plan to pay your student contribution through the HECS-HELP scheme, you'll need a tax file number (TFN): if you don't already have one, apply online at ato.gov.au.

Commit or withdraw

After you enrol you have until the census date to pay your fees, sign up for a HELP loan, or withdraw without penalty from the course. The census date varies depending on when your course starts, but it is usually at least a couple of weeks after the course start date.

> If you have accepted more than one offer, and enrolled in more than one course, make sure you formally withdraw from all courses you are not proceeding with so that you are not charged tuition fees or graded as failed.

Go to orientation days

Many institutions have orientation days for new students. Orientation programs are designed to help you adjust to campus life. Most include course induction sessions, so it's important to attend.

Consider bridging courses

You can enrol in a course even if you haven't completed the HSC subjects that are assumed knowledge for that course. But you may find it difficult to keep up with the course content, or be limited in your elective subject choices.

Most institutions offer bridging courses if you need to do some extra study before the course begins. However, bridging courses are only taught to an introductory level and are not equivalent to the two-year HSC course.

Fred and Laura

Laura is thrilled; she's received an offer to her first preference – a Bachelor of Environmental Science. She accepts her offer and starts planning for the year ahead.

Fred is pleased, too; he's received an offer to a Diploma of Business. He's determined to do well and will probably start the bachelor degree in his second year. He's also looking forward to getting involved in sport on campus.

Transferring

You may start a course that isn't your first preference. Many students enrol in a course with a view to transferring into another course after completing a year's study. A typical example is completing one year of a general degree such as Arts and then transferring to a more specialised degree such as Arts/Law.

Transfers such as this are possible but very competitive and you usually need to achieve excellent results in your first year. Remember that each institution has its own requirements for transfers – check with the relevant institution for more information before you enrol.

In most cases you are not in fact transferring, but withdrawing from one course and applying for entry to another. You usually need to submit a new application through UAC for the new course. Then, if you get an offer you can formally withdraw from your current course. It's important to do this so you don't have additional HECS fees or absent fails.

Each year,
unis make more
than 100,000 offers
to undergraduate
courses through UAC.

International students

Conditional offers

A few days after you've submitted your application, you'll receive advice of a conditional offer via email. The email will list all the courses you've applied for. You can also access your conditional offer advice by logging in to your application. You will need your UAC application number and UAC PIN to log in. If you use an agent, your agent will also be able to view your offer advice.

You only receive one conditional offer. You will not receive another one if you change your preferences.

Your conditional offer is intended for your pre-visa assessment only; it doesn't let you enrol at your chosen institution. You must receive an unconditional offer to be eligible to enrol in a course.

Unconditional offers

To receive an unconditional offer you must:

- have the course in your list of preferences when offers are made
- have a selection rank (ATAR + adjustment factors) equal to or higher than the lowest international course selection rank
- meet any other course entry requirements.

If you don't meet the requirements for a course, you may receive an offer to another course with a lower level of study, such as an international foundation program.

You can receive one offer per institution in each round.

UAC will email advice about unconditional offers to successful applicants between mid-December and February.

Acceptance and enrolment

Follow the institution's instructions for accepting your offer and paying the required tuition fee deposits and compulsory Overseas Student Health Cover charge.

Once you've accepted your offer and made your payments, the institution will send you a Confirmation of Enrolment. This document will allow you to obtain your student visa.

If you're granted permanent resident status after applying, you'll need to reapply as a domestic undergraduate applicant. Contact UAC for instructions on how to do this. Advise the institution, not UAC, if you've already received an unconditional offer or enrolled.

For information on application closing dates, change of preference dates and offer dates, visit the UAC website.

UAC jargon

Definitions of the common terms used by UAC, universities and colleges.

ACT Board of Senior Secondary Studies (ACT BSSS)

The statutory authority responsible for the certification of senior secondary school studies in government and non-government schools in the ACT.

Adjustment factors

Factors that institutions consider in order to increase your selection rank for a particular course (eg achievement in an HSC course related to your preferred degree or eligibility for the Educational Access Scheme). Adjustment factors do not change your ATAR.

Admission criteria

The minimum qualifications (eg HSC, ATAR) you require to be considered for entry to a particular course. Entry to many courses is competitive and the attainment of minimum qualifications does not guarantee you will be offered a place.

In addition to a qualification, you may need to complete a personal statement, questionnaire, portfolio of work, audition, interview or test.

Advanced diploma

An award requiring two or three years of full-time, or equivalent part-time, study. This is the highest of the undergraduate diploma awards.

Age cohort

Used by each state in the calculation of the ATAR so that ATARs across Australia can be viewed as equivalent. It ensures that a student's rank is a measure of their performance against their age group, not just those who completed Year 12 and were eligible for an ATAR.

Areas of study

Areas of study or specialisation within a course. They may be studied throughout the course as major areas of study, specialisations or sub-majors, or as additional or supporting subjects.

Associate degree

An award requiring two years of full-time, or equivalent part-time, study which equates to the first two years of a designated three-year degree course.

Assumed knowledge

Some institutions assume you have knowledge of specified NSW HSC courses or equivalent before beginning your course. If you do not have the assumed level of knowledge but have met the admission criteria, you can still be selected for the course, but you may have some difficulty coping with your studies. Bridging courses may be recommended for some students who do not have the assumed level of knowledge.

ATAR (Australian Tertiary Admission Rank)

A measure of academic achievement in the HSC that helps institutions rank applicants for selection to tertiary courses. The ATAR is a rank, not a mark out of 100.

ATAR courses

Board Developed courses for which the NSW Education Standards Authority conducts examinations that yield graded assessments. These are the only courses that can be included in the ATAR calculations.
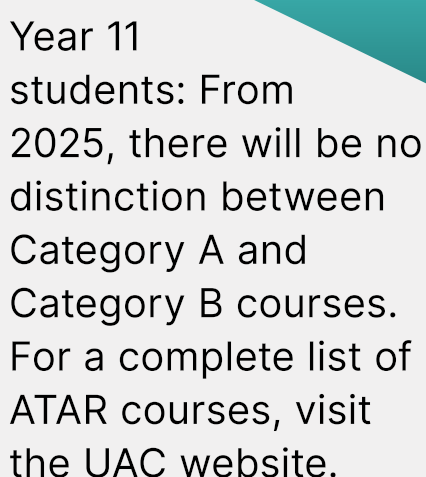

In 2024, ATAR courses are classified as Category A courses or Category B courses.

Category A courses

ATAR courses that have the academic rigour and depth of knowledge to provide an adequate background for tertiary studies and can contribute to the ATAR calculation.

Category B courses

ATAR courses that don't provide an adequate background for tertiary studies, but can contribute to the ATAR when combined with Category A courses. No more than 2 units of Category B courses can be included in the ATAR calculation.

Year 11 students: From 2025, there will be no distinction between Category A and Category B courses. For a complete list of ATAR courses, visit the UAC website.

Bachelor degree

An award requiring three or four years of full-time, or equivalent part-time, study.

Bridging courses

Courses that enable you to achieve the required level of assumed knowledge for a tertiary course. These courses are only taught to an introductory level and are not equivalent to the two-year HSC course.

Census date

The date by which all your enrolment requirements must be finalised. It is usually a couple of weeks after the course start date. You can withdraw from a course before this date without financial or academic penalty. Course fees are payable from this date.

Combined/double/dual degrees

Allow students to complete two degrees in less time than if the two degrees were studied sequentially.

Commonwealth-supported place (CSP)

A place in a course to which the Australian Government contributes towards the cost, and the student pays a student contribution.

Deferment

The situation when a student has received an offer to enrol in a tertiary course but has been given permission by the institution to delay the start of the course for a fixed period, usually one year.

Diploma

An award usually requiring one or two years of full-time, or equivalent part-time, undergraduate study. These courses are usually characterised by more emphasis on practical skills than on the theoretical content.

Domestic applicant/student

An applicant/student who is an Australian or New Zealand citizen or permanent resident of Australia.

Domestic fee-paying (DFEE) student

A student who is an Australian or New Zealand citizen or permanent resident of Australia who meets the entire cost of their studies through tuition fees.

Educational Access Scheme (EAS)

An entry scheme for university applicants who have experienced educational challenges due to circumstances beyond their control or choosing. Apply for EAS through UAC.

Equity Scholarships

Provide financial support to students from low socio-economic backgrounds, particularly those receiving Centrelink income payments. They are funded by institutions. Apply for Equity Scholarships through UAC.

Extension courses

HSC courses that enable you to undertake more in-depth study in areas of special interest. These courses build on the content of the 2-unit course.

FEE-HELP

A loan for eligible fee-paying students to pay their tuition fees. For further information, visit the Australian Government's Study Assist website at studyassist.gov.au.

HECS-HELP

A loan for eligible Commonwealth-supported students to pay their student contributions. For further information, visit the Australian Government's Study Assist website at studyassist.gov.au.

Honours

An additional year of study at university involving a higher level of study in a certain subject.

HSC mark

A 50:50 combination of a student's examination mark and school-based assessment mark for each course. It is recorded on the student's HSC Record of Achievement, which is issued to them by the NSW Education Standards Authority.

HSC subject areas and courses

An HSC subject area may have several courses. For example, within the subject area of English, courses include English Standard, English Advanced, English Extension 1, English Extension 2, English as an Additional Language or Dialect, and English Studies. To be eligible for an ATAR, you need to study courses from four subject areas.

Institution

A provider of tertiary study, such as a university or a college. UAC's participating institutions are those for which you apply through UAC.

International fee-paying students

Students who are not Australian or New Zealand citizens or permanent residents of Australia and meet the entire cost of their studies through tuition fees.

Lowest selection rank

The lowest selection rank (ATAR or equivalent + adjustment factors such as equity or performance in an HSC subject) required to be offered a place in a course. The course listing in this publication shows the lowest selection rank required to receive an offer to each 2024 semester 1 course in the main Year 12 offer rounds. They can be used as a guide for admission to courses in 2025. The lowest selection ranks for courses in a particular year are only known after all offers for that year are made.

Moderation

The process of adjusting school assessment marks to a common scale so that direct comparisons can be made between assessment marks awarded by different schools. The rank order of students within a school group, and the relative gaps between them, are maintained.

Non-standard Year 12 applicant

An applicant who is completing a non-standard program of study through, for example, Australian Christian Education, Rudolph Steiner Education, home schooling and the Queensland Senior External Examination. Identified as not completing an Australian Year 12 when applying through UAC.

NSW Education Standards Authority (NESA)

Sets the core curriculum for Kindergarten to Year 12, sets guidelines for school assessment tasks, and sets, organises and marks the HSC examinations for government and non-government schools in NSW.

Open days

Open days are set aside for prospective students to visit a campus to view the facilities and meet academic staff and students.

Pathway courses

Non-degree tertiary courses, such as foundation studies, preparatory courses and certificates, diplomas or associate degrees. Institutions offer them to applicants who don't meet the entry requirements for their course or need further support and preparation before studying at degree level. Many institutions offer entry into the degree after successful completion of the corresponding pathway course. Some institutions offer pathway courses through UAC.

Percentile

An indicator of your position in an HSC course relative to other students. For example, if your percentile in a course is 73, you are in the top 27 per cent of the students in that course.

Performance band

A band representing a level of achievement in a course. There are six performance bands for 2-unit courses and four for extension courses. For 2-unit courses, Band 6 is the highest and Band 1 is the lowest.

Preparation courses

Designed for applicants who haven't completed Year 12 or haven't met entry requirements as preparation for further study. Minimum age requirements sometimes apply and the length of these courses differs between institutions.

Prerequisites (see also Assumed knowledge)

A specified NSW HSC course or equivalent that you need to have completed, or achieved a specified standard in, before you are eligible to be offered a place in the tertiary course (course prerequisites) or a subject within that course (subject prerequisites).

Raw HSC mark

The average of your raw examination mark and your raw moderated school assessment mark, before it is aligned to performance bands by the NSW Education Standards Authority or scaled by UAC. This mark is not reported to you.

Recommended studies

NSW HSC or equivalent courses that institutions suggest will help you in your chosen university course. However, if you haven't studied these courses your chances of selection are not affected.

Scaled mark

The mark used in the ATAR calculation. It is used because unscaled marks in different courses are not directly comparable, and an adjustment must be made before an overall measure of achievement can be determined. Scaling allows the comparison of students who have studied different courses by determining what the marks would have been if all students had attempted all courses.

Scaled mean

An indicator of the average academic achievement of all students in an HSC course. It is used in the ATAR calculation.

Scaling

The first step in calculating your ATAR. It enables the many different courses taken by students to be compared fairly. Scaling is designed to encourage you to take courses for which you are best suited and which best prepare you for future studies. The underlying principle is that you should be neither advantaged nor disadvantaged by choosing one HSC course over another.

Schools Recommendation Scheme (SRS)

A scheme that enables institutions to make early offers to current Year 12 students who have applied for undergraduate admission through UAC. They use a range of selection criteria, such as aptitude for tertiary study and Year 11 results. Apply for SRS through UAC.

Semester

A division of the academic year, usually into first and second semesters. Students can start courses at the beginning of the first and, in some cases, second semester. Some institutions call them autumn and spring semesters. Others use session or half-year. Some institutions have trimesters or terms, with an additional study period over summer.

Slipback offer

An offer to a lower level of study than you have applied for. For example, you apply for a bachelor degree and the institution decides that, while you are not eligible and competitive enough for entry, you are eligible for a lower level of study, such as a diploma. The institution makes you an offer to the lower level course.

Universities Admissions Centre (UAC)

The central office that receives and processes applications for admission to most undergraduate courses at its participating institutions as well as applications for the Educational Access Scheme, Schools Recommendation Scheme and Equity Scholarships. UAC notifies NSW HSC students of their ATAR (ACT students are notified by their school) and makes offers of admission on behalf of participating institutions. It also processes applications for postgraduate courses. As a private company owned by universities in NSW and the ACT and a registered charity, UAC aims to provide excellence in admissions services and promote equity of access to tertiary education.

Year 12 applicant

A student who is sitting 1 or more units of an Australian Year 12 in Australia or outside Australia (except Queensland Year 12 external students) or sitting the International Baccalaureate in Australia in the current admissions year (April to the following March).

Course Finder

Course Finder is a guide to the more than 2,000 undergraduate courses offered to domestic students in 2024. Full course descriptions of the courses to be offered in semester 1, 2025 will be published on UAC's website from April 2024 as details are confirmed.

Course Finder is in two parts:

1. 'Find your topic of interest' directs you to the fields of study that incorporate your interests.
2. 'Find your course' lists relevant courses under each field of study. It indicates the institution that offered the course, the UAC course code and the lowest selection rank (LSR) required to receive an offer to each course in the main Year 12 offer rounds. Selection ranks can change from year to year.

To find out more about a listed course, search for the course description using the course search on the UAC website.

Find your topic of interest

1. Find a topic that interests you (eg Aboriginal studies). It will refer you to one or more fields of study (eg *see* Health *and* Society and Culture).
2. Turn to 'Find your course' and look up the cross-referenced field of study (eg Society and Culture). Browse the courses offered in that field.

Find your course

All courses are listed under fields of study, or disciplines, defined by the Australian Government. You'll find that university faculties and schools are organised in a similar way, although the actual names vary – one uni might have a Faculty of Engineering while another uni has a Faculty of Engineering and IT.

NSW Department of Education

Teaching opens doors

Are you looking for a career that can take you places and allow you to make a difference?

Teaching is a profession like no other. As a beginning teacher with the NSW Department of Education, you could work for the largest employer of teachers in Australia. It's a flexible career that can take you from the classroom to leadership and rewarding community roles.

Benefits of teaching with the NSW Department of Education include:

- a competitive **graduate salary package of $95,490** straight out of university

- professional development and learning opportunities

- the flexibility to teach in a range of school settings and locations across the state

- the opportunity to be financially supported while you study and receive a permanent teaching position upon successful completion of your degree

Scan the QR code to find out more about subject requirements, university admission guidelines and scholarship programs available for future teachers.

To find out more about teaching as a career, visit: **tinyurl.com/TeachNSW**

UAC disclaimer

Your privacy

When you apply to the Universities Admissions Centre (NSW & ACT) (UAC) you provide a lot of personal information, sometimes including health information.

UAC values the privacy of your personal information and recognises the importance of protecting it. UAC is bound by the following legislation:

- *Privacy and Personal Information Protection Act 1998* (NSW)
- *Privacy Act 1988* (Cth)
- *Health Records and Information Privacy Act 2002* (NSW).

This means that UAC must uphold the NSW State Information Protection Principles, the Australian Privacy Principles and the NSW Health Privacy Principles. UAC is committed to upholding these principles and has implemented policies and procedures to ensure they are met.

You can view UAC's Privacy Policy and applicant declarations at uac.edu.au/privacy.
